

Terms and Conditions:

2023 Xmas Cashback Promotion

Version 1.1

Last Update: 12 Dec. 2023

1. Cashback Overview:

-The Xmas cashback constitutes real money credited to clients' accounts (in the form of credit line), gradually becoming withdrawable based on their net trading volume.

- The Xmas Cashback will be equal to 3 times the deposit amount. (deposits of \$1,000- up to, \$33,333) and up to \$100,000.

-Prior to accepting any rebate, clients are required to carefully consider and adhere to the terms and conditions associated with this Policy.

-Clients receiving the Xmas Cashback promotion cannot receive other Bonuses for the same deposit.

2. Volume Criteria:

-For every 1 Lot (\$100,000) traded, clients are eligible to withdraw \$10 from the received rebates upon conclusion of the timeline of the Xmas promotion.

3. Timeline of Xmas Cash Back Promotion:

-Eligible deposits (from \$1,000- up to \$33,333) made until December 31, 2023, will be credited with the Cash Back amount.

-The calculation of withdrawable cashback is based on the trading volume starting from the deposit date (minimum \$1,000) up until January 15th, 2024.

4. Use of Available Funds:

-The sum of the account balance on the date, including bonuses, is eligible for creating the required trading volume.

(EXAMPLE: Suppose a client's account initially has a \$20,000 balance, along with a \$10,000 bonus, a \$2,000 deposit, and a cashback of \$6,000. This results in a total balance of \$38,000 with an available amount for withdrawal on the first day of \$22,000. If the client trades 600 lots, the \$6,000 cashback becomes withdrawable, calculated at \$10 per lot. Alternatively, trading 300 lots permits a withdrawal of \$3,000, also calculated at \$10 per lot.)

5. Withdrawal Process:

- Cashback funds become withdrawable by meeting the above-mentioned Volume Criteria.
- The calculations for the redeemable Cash Back amount will be made following the lapse of the timeline (Article. 3) and according to the volume generated during the period.
- Client's own funds remain unaffected and can be withdrawn freely at any time.
- In the event of a withdrawal request by a client who received Cashback, EZinvest reserves the right to deduct unredeemed rebate funds based on the volume condition and then process the withdrawal of any remaining own funds available.

(EXAMPLE: In the scenario where a client deposits \$1,000, incurs a loss of \$200, and receives a \$3,000 cashback, resulting in an equity of \$4,000, the amount available for withdrawal is \$800. Initiating a trade of 1 lot USDCHF (\$100,000) raises the withdrawable amount to \$810. Trading 300 lots enables the complete withdrawal of the \$3,000 cashback amount.)

6. Excluded Instruments from Volume Calculation

- Stocks and cryptocurrencies are excluded from consideration in the volume calculation.

Note: These terms and conditions are subject to change, and participants should refer to the latest updates for accurate information.

Engaging in abusive trading behavior will automatically result in exclusion from the cashback promotion, and any earned cashback will be fully deducted, regardless of the trading volume generated during the promotion period.

Islamic accounts are not eligible for this promotion.
